Landing Page Ideas

Medium-fidelity prototype of possible landing page

The prototype features the University of Regina logo at the top left. To its right is a horizontal navigation bar with links: Home, IDA map, OBD forms, and About us. Further to the right is a 'Login' button with a user icon. Below the navigation is a large banner image of a person's hand interacting with a digital interface displaying various data visualizations like bar charts and graphs. Underneath the banner is a grid of course abbreviations: ENSE, ENEV, ENEL, ENIN, ENGG, and ENPE. Below this grid is a larger, empty table structure with columns labeled 'Course' and 'GA's'. A green callout box labeled 'GA's definition' points to the right side of the table. The entire layout is framed by a light blue border.

Instructor form submission

The prototype consists of two main panels. The left panel, titled 'LOGO', contains a navigation bar with Home, IDA map, OBA forms, About us, and Log out. It displays a message 'Submission Successful! You have {0} forms left to submit.' and two buttons: 'View Previously submitted forms' and 'Submit a new form'. Below these is a table showing previously submitted forms with columns for Date, Course, and Status. The right panel, which has a search bar and a 'Class name:' input field, is connected to the 'Submit a new form' button via a blue arrow. This panel includes a large empty grid for entering data, an 'Upload OBA file' button, and 'edit' and 'Save' buttons at the bottom.
