Customer feedback

Feelin' Peachy Rings

What we took from the first meeting?

- OBA form gathering is disorganized need a better way
- Finding the gaps in the submitted OBA forms and missing GA requirements
- Didn't really understand our focus, hopefully this gives a better idea of what we're envisioning

Landing page

If we have a landing page:

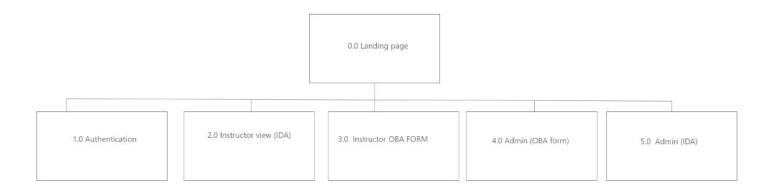

- IDA map could be public information
- Due dates could be public information
- Easier to navigate (familiar starting point)

If we don't:

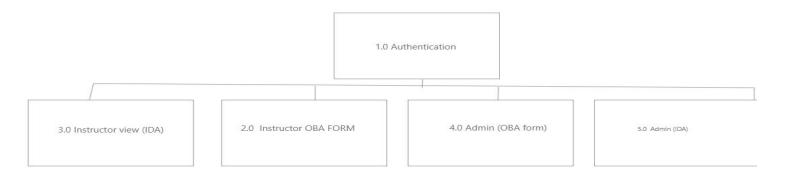

- Authentication would be the first page
- Would be similar to UR self-service / UR courses

What are your thoughts? Would you prefer a landing page?

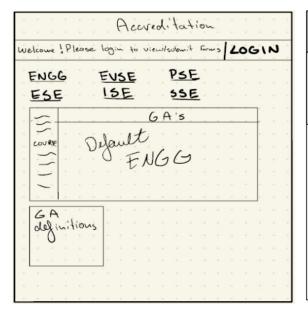

With landing page?

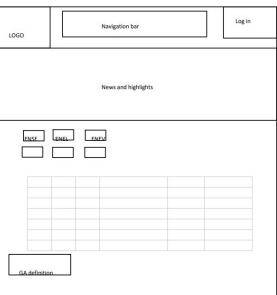

Without landing page?

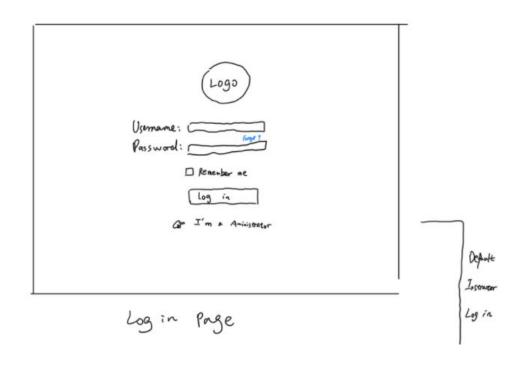

Landing page? Yes?

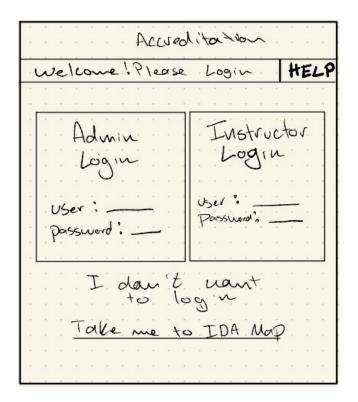

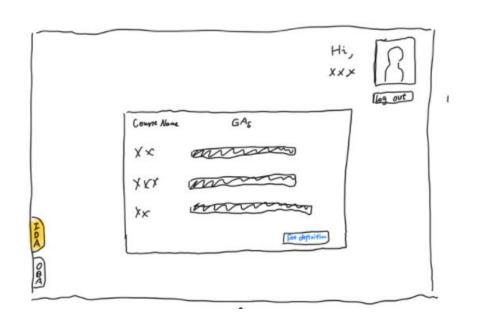

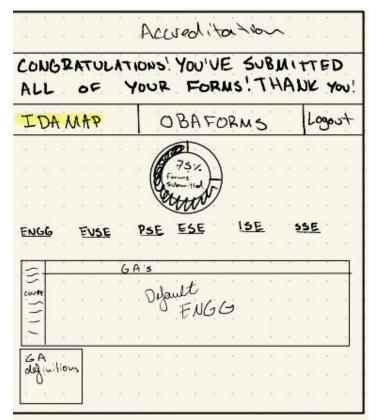

Authentication

Instructor view - IDA Map

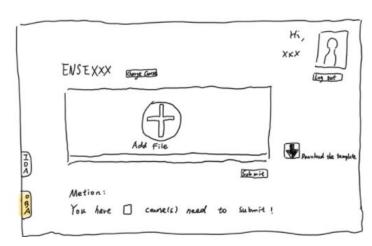

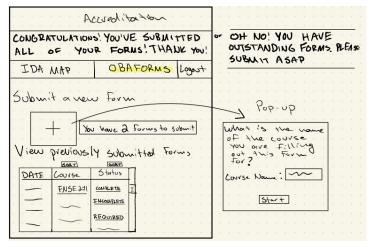

Instructor view - OBA forms

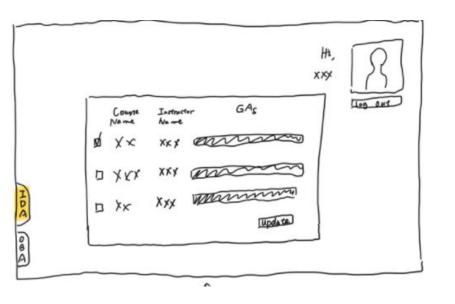

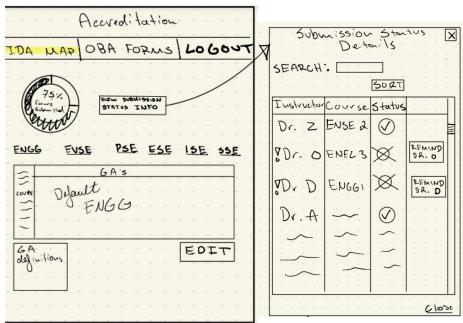

Do instructors upload their OBA forms or do they fill them out/submit them online within the site?

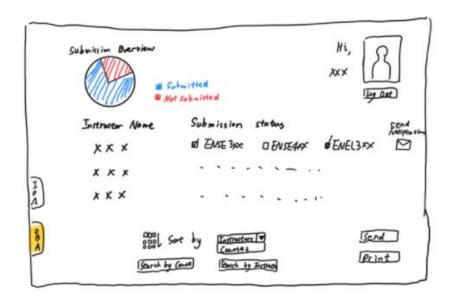

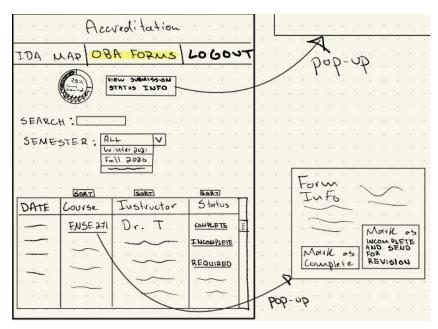

Admin view - IDA map

Admin view - OBA Forms
